Maxi ISC 30 StarPlus intelligent solar system controller are the best seller of one of the most used SHS controller. With high power up to 30A at automatically recognized 12 V or 24 V it fits to a system with 900 Wp. The circuit board is completely electronically protected and a large display informs the users about all operating modes with the aid of symbols including voltage, current and state of charge. Large terminals guarantee a simple connection of solar panel, battery and load.
